Indiana Department of Labor Performance Metrics – Quarter 2 2014

Published: July 31, 2014

Three Tiers of Metrics

Index | Key Performance Indicators & Program Funding Measures

Key performance Indicators (KPIs)

KPI #1: Annual Nonfatal Occupational Injury and Illness Rate for Indiana

KPI #2: Average Nonfatal Occupational Injury and Illness Rate for Emphasis Industries

KPI #3: Number of Businesses Participating in Indiana Safety and Health Achievement Recognition Program (INSHARP) and the Voluntary Protection Program (VPP)

Program Funding Measures

Average Elapsed Time for All IOSHA Inspections with Citations

Number of Indiana Occupational Safety and Health (IOSHA) Inspections

Percentage of Meritorious Wage Claims which Result in Recovered Wages

Number of Child Labor Inspections

Total INSafe Consultations and Interventions Closed

Number of Coal Mine Inspections

Survey of Occupational Injuries and Illnesses (SOII) Response Rate

Key Performance Indicators

Key Performance Indicators (KPIs) are used to demonstrate the overall performance of the Department of Labor. These metrics are reported to the Office of the Governor and the Indiana Office of Management and Budget. The KPIs are included on the Governor's dashboard report.

KPI #1:

Annual Nonfatal Occupational Injury and Illness Rate for Indiana

The Nonfatal Occupational Injury and Illness rate shows an estimate of the number of workplace injuries and illnesses per 100 employees. The data is collected by the Quality Metrics and Statistics (QMS) division through the Survey of Occupational Injuries and Illnesses. The rate is reported annually nine-months after the survey year ends.

KPI #2:

Average Nonfatal Occupational Injury and Illness Rate for Emphasis Industries in Indiana

Based on high injury and illness rates, the Indiana Department of Labor has identified Agriculture, Healthcare, and Transportation as specific emphasis areas for our safety and health efforts. This graph shows the average of the nonfatal occupational injury and illness rates for Agriculture, Healthcare, and Transportation.

KPI #3:

Number of Businesses Participating in INSHARP and VPP

The Indiana Safety and Health Achievement Recognition Program (INSHARP) and Voluntary Protection Program (VPP) are exemplary programs that provide recognition, rewards and ongoing support to Hoosier employers that operate exemplary safety and health management systems. Membership in these programs is voluntary.

Program Funding Measures

Program Funding Measures show the outcomes and outputs of Indiana Department of Labor programs in each of the agency's funding sources. These metrics are reported quarterly to the Indiana Office of Management and Budget.

Program Funding Metrics

KPIs can double as Program Funding Metrics

Fund Center Name	Program Objective	Program Indicator
IOSHA	Reduce occupational injuries and illnesses	Annual Nonfatal occupational injury and illness rate <i>Outcome oriented</i>
	Improve safety through efficient customer service and compliance review	Average elapsed time for inspections with citations <i>Outcome oriented</i>
	Advance workplace safety through both complaint driven and targeted inspections	Number of Indiana Occupational Safety and Health (IOSHA) Inspections <i>Output oriented</i>
Operations, Wage & Hour and Bureau of Child Labor	Enforce employee's right to lawful wages	Percent of meritorious wage claims and CCW audits resulting in recovery of wages owed <i>Outcome oriented</i>
Employment of Youth Bureau of Child Labor	Enforce Indiana child labor laws through regulation	Number of child labor inspections <i>Output oriented</i>
INSafe	Improve safety and health through outreach, education and training	Total INSafe Consultations and Interventions Closed <i>Output oriented</i>
Bureau of Mines	Enhance underground mine safety	Number of mine inspections <i>Output oriented</i>
Quality, Metrics & Statistics	Produce reliable and clean data to measure IOSHA and INSafe safety and health outcomes	Bureau of Labor Statistics survey return rate <i>Outcome oriented</i>

Average Elapsed Time for All OSHA Inspections with Citations

This metric measures the average elapsed time to complete OSHA inspections with citation from the Opening Conference through the date the citation is issued. Cases may sometimes take several months to complete, so the data for the two most recent quarters may fluctuate as these inspections are closed.

Number of Indiana Occupational Safety and Health (IOSHA) Inspections

The quarterly goals for Number of IOSHA Inspections conducted per quarter have decreased due to tremendous changes in staffing over the last 18 months. With so many new Compliance Safety and Health Officers (CSHOs) and the new OSHA Express software, 2014 will be considered a "rebuilding" year.

Percentage of Meritorious Wage Claims which Result in Recovered Wages and Recovery Amounts

After reviewing the documentation provided by both an employee and an employer, the Indiana Department of Labor considers a wage claim meritorious if it is determined that the employee is owed the wages claimed. This graph shows the percentage of claims where wages are recovered and amount of money recovered for the claimants.

Number of Child Labor Inspections

The Bureau of Child Labor investigates Indiana employers for violations of Indiana's Child Labor laws. This chart shows the number of investigations performed by the Bureau of Child Labor. For Q2 2014, there was only one Inspector.

Total INSafe Consultations and Interventions Closed

Employers may request free occupational safety and health consultations from INSafe. Consultation services include a hazard identification walkthrough and a review of an employer's safety programs and procedures. Interventions are presentations, speeches or questions a consultant performs outside of a typical consultation.

Number of Coal Mine Inspections

The fluctuation in inspection numbers corresponds with staffing levels in the Bureau of Mines. In Quarter 1 2008, an additional mine inspector was added. This position was eliminated in Quarter 4 2009 and subsequently re-hired in Quarter 1 2012.

Survey of Occupational Injuries and Illnesses (SOII) Response Rate

The Survey of Occupational Injury and Illness (SOII) is conducted from mid-January to mid-July each year and collects results from the previous calendar year. The survey rate is reported to GEFP annually upon completion of the survey.

Management Statistics

All IDOL Customer Survey Responses

Customer Surveys are collected from hand-completed and electronically-submitted survey forms. The forms have five categories that are scored from 1 (Poor) to 4 (Excellent). Twenty (5 categories X 4) is a perfect score.

Customer Surveys by Division

This chart shows the number of hand-completed and electronically-submitted surveys received by the Indiana Department of Labor per division. In May 2014, the Customer Service role previously performed by the Wage and Hour Division was reassigned to the State Information Center.

Number of IOSHA Workplace Fatality Investigations

Due to jurisdictional issues, the Indiana Occupational Safety and Health Administration (IOSHA) investigates many, but not all, workplace fatalities that occur in Indiana. This chart shows the number of fatality investigations conducted per quarter.

Number of IOSHA Workplace Fatality Investigations by Cause of Death

2014 Q1 and Q2

Due to jurisdictional limitations, the Indiana Occupational Safety and Health Administration (IOSHA) investigates many, but not all, workplace fatalities that occur in Indiana. This chart shows the causes of death in the investigated fatalities.

IOSHA Inspection Elapsed Time by Division

Construction

General Industry

Average of Days from Open to Closing Conference

Average of Days from Closing to Citation

Goal

This chart shows the average elapsed time to complete IOSHA Construction and General Industry inspections with citation from the Opening Conference through the date the citation is issued. Inspections may sometimes take several months to complete, so the data for the two most recent quarters may fluctuate as these inspections are closed.

Percentage of IOSHA Investigations with Violations

Construction

General Industry

■ Citation Rate
 — Safety National Average
 ➔ Trend

Indiana Occupational Safety and Health Administration (IOSHA) investigations do not always result in a citation or monetary penalties. Sometimes, investigations are completed but no violations are cited. These charts show the percent of Construction and General Industry investigations with violations.

Indiana Board of Safety Review

Cases Closed

■ Cases Closed
 — Annual Average
 — Goal

Number of Pending Cases

■ Pending Cases
 — Annual Average
 — Goal

The Board of Safety Review meets once per month to hear employer appeals of Indiana Occupational Safety and Health Administration (IOSHA) citations. The charts above show the number of cases closed and pending per quarter.

Whistleblower Cases

Cases Closed

Average Elapsed Time

The Indiana Occupational Safety and Health Administration (IOSHA) investigates claims of retaliation against employees who “blow the whistle” on unsafe practices in their place of employment. Above are charts showing the number of cases closed and the average elapsed time for Whistleblower cases each quarter.

Number of Child Labor Trainings

The Bureau of Child Labor conducts training classes covering Indiana's Child Labor laws. From Quarter 2 2009 through Quarter 3 2013, these trainings were performed regularly by the Director of Child Labor, Training and Education.

Percentage of Child Labor Investigations with Violations

Not all investigations performed by the Bureau of Child Labor result in violations or monetary penalties. This chart shows the percentage of Child Labor investigations where violations were cited.

Number of Wage Claims Received

Employees who feel they have been paid incorrectly may file a wage claim with the Indiana Department of Labor (IDOL). The Wage and Hour Division contacts the employer, compares the documentary evidence provided by both parties and determines if the employee is owed past wages.

Wage Claims Average Elapsed Time

Employees who feel they have been paid incorrectly may file a wage claim with the Indiana Department of Labor (IDOL). The Wage and Hour Division contacts the employer, compares the documentary evidence provided by both parties and determines if the employee is owed past wages. The average elapsed time starts at receipt and ends at determination.

Number of Common Construction Wage Hearings

Indiana's Common Construction (prevailing wage) law requires that a public hearing be held for nearly all public works projects where the bids are estimated to be in excess of \$350,000. This chart shows how many hearings are held each quarter.

Common Construction Wage Audits Closed

The Indiana Department of Labor investigates alleged violations of Indiana's Common Construction (prevailing wage) law. This chart reflects the number of closed Common Construction Wage audits per quarter.

Average Elapsed Time for INSafe Consultations

Safety Consultations

Health Consultations

■ Request to Opening Conference
 ■ Opening Conference to Closing Conference
 ■ Closing Conference to Final Report
■ Final Report to Closed
 — Overall Average (2014 Q2: 119.20 Days)
 — Goal

Employers may request free occupational safety and health consultations from INSafe. Consultation services include a hazard identification walkthrough and a review of an employer's safety programs and procedures. The overall average elapsed time is calculated from the date the request is received to the date the visit is closed.

Percentage of BOM Inspections with Violations

The Bureau of Mines performs inspections at all Indiana underground coal mines. This chart shows the percent of those inspections where a violation is cited.

BOM Certifications Issued

Certifications by Quarter

Q2 2014 Certifications

The Indiana Mining Board administers certification testing for miners in the classifications of Mine Foreman, Mine Examiner, Belt Examiner, Hoisting Engineer and Shot Firer. Above are the numbers of certifications per quarter.

Total Fleet, Personal and Rental Miles Driven by Quarter

In the course of investigations, inspections, consultations, trainings and hearings, Indiana Department of Labor staff drive motor vehicles almost everyday. This chart shows the total miles driven each quarter.
